Index to Volume XV

October 12, 1927 to March 28, 1928, Inclusive

Pit and Quarry

Every Operator's Paper

COMPLETE SERVICE PUBLISHING COMPANY

538 South Clark Street, Chicago, Illinois

This index is cross-referenced by title, subject, author (if any) and the name of the plant (if any). For example, the article "The Home of Wood Burned Lime" by F. A. Westbrook, is indexed under the title, the author's name, under "Lime", "Wood Burned Lime" and under "J. A. Creighton & Co." Therefore, if you know the title, the subject, the name of the plant or the name of the author, the desired article may be quickly located.

ABC's of Accident Prevention. *R. P. Blake.* No. 11, Feb. 29, 1928 77-80

Accidents—*see also* "Safety."
ABC's of Accident Prevention. *R. P. Blake.* No. 11, Feb. 29, 1928 77-80
Personal Injury Accidents. *W. H. Weitknecht.* No. 11, Feb. 29, 1928 64-66
Values of Accident Prevention. *Otho M. Graves.* No. 1, Oct. 12, 1927 63-68
What about the Increasing Highway Accidents? *Charles M. Upham.* No. 13, Mar. 28, 1928....43-44

Accounting—Cost Accounting and its Application to the Mineral Aggregate Industry. *Carl Penner.* No. 7, Jan. 4, 1928 49-51

Action of Additions of Flourides to Glasses and Enamels. *G. Agde and H. F. Krause.* Part II. No. 3, Nov. 9, 1927 105-109
Part III. No. 4, Nov. 23, 1927 95-96

Action of Cement and Gypsum on Light Metals. *Julius Meyer and Kirt Pukall.* No. 10, Feb. 15, 1928....77-79

Adams, W. W.—Our National Safety Contests. No. 11, Feb. 29, 1928 70-72
Safety in the Quarry Industry. No. 1, Oct. 12, 1927..81-84

Agde, G., and H. F. Krause—Action of Additions of Flourides to Glasses and Enamels. Part II. No. 3, Nov. 9, 1927 105-109
Part III. No. 4, Nov. 23, 1927 95-96

Age and Romance in Marble. *F. A. Westbrook.* No. 11, Feb. 29, 1928 49-59

Aggregates—Cost Accounting and its Application to the Mineral Aggregate Industry. *Carl Penner.* No. 7, Jan. 4, 1928 49-51
Gradation and Character of Aggregates as a Factor in Workability. *A. T. Goldbeck.* No. 12, Mar. 14, 1928 61-62
Gravel as an Aggregate for Concrete. *R. W. Crum and F. H. Jackson.* No. 13, Mar. 28, 1928....61-62
Light Weight Aggregate by new Method. No. 5, Dec. 7, 1927 73-74
Problem of Mineral Aggregate Producers. *Stanton Walker.* No. 7, Jan. 4, 1928 77-80
Separate Sizes of Coarse Aggregate for Concrete. *R. T. Giles.* No. 9, Feb. 1, 1928 79-80
What is the Trend of Mineral Aggregate Specifications? *R. W. Gamble.* No. 6, Dec. 21, 1927....118-120

Agstone—Evaluating Agricultural Limestone Products. *F. E. Bear.* No. 10, Feb. 15, 1928 49-52
How Agstone is Sold out of Season. *A. R. Ebersoll.* No. 3, Nov. 9, 1927 70

Alaska Roads. *M. D. Williams.* No. 12, Mar. 14, 1928.. 74

Allan, W. D.—Recent Developments in the Manufacture and Use of Concrete Masonry. No. 8, Jan. 18, 1928 85-88

Allen, Jean M.—Simplicity in Design and Operation Effected in this Plant. No. 5, Dec. 7, 1927....39-42

American Society for Testing Materials Discusses Cement, Lime and Gypsum. No. 13, Mar. 28, 1928 67-68

Analysis of 1927 Corporate Tax Problems. *J. J. Berliner.* No. 5, Dec. 7, 1927 43-49

Analysis of Portland Cement. *Kallauner, Simane and Helan.* No. 12, Mar. 14, 1928 71-74

Page

Analysis of Relative Values of Various Vibrating Screens. *D. W. Yambert.* No. 9, Feb. 1, 1928....57-60

Arrow Sand and Gravel Co.—Three Examples of 1927 Development in Sand and Gravel Plants. No. 6, Dec. 21, 1927 111-116

Asbestos—Canadian Asbestos Industry. No. 1, Oct. 12, 1927 68

Asphalt—Factors Affecting the Stability of Asphalt Paving Mixtures. *F. P. Smith.* No. 5, Dec. 7, 1927 87-90
Gravel and Stone Bases for Asphalt Wearing Courses. *E. N. Seymour.* No. 5, Dec. 7, 1927 81-82
Progress of Asphalt Paving Industry. No. 2, Oct. 26, 1927 96
Sands for Sheet Asphalt Pavements. *Prevost Hubbard and F. C. Field.* Part I. No. 5, Dec. 7, 1927..95-96
Part II. No. 7, Jan. 4, 1927 89-92
Sheet Asphalt Maintenance Requirements. *George F. Fisk.* No. 5, Dec. 7, 1927 91-94
Sixth Annual Asphalt Paving Conference Largest and most Active. No. 7, Jan. 4, 1928 95-97
Value of Asphalt for Paving. *J. S. Helm.* No. 8, Jan. 18, 1928 60

Associations—How an Aggregate Association can Cooperate to Assure Furnishing Specified Material. *H. S. Mattimore.* No. 9, Feb. 1, 1928 81-82

Atlas Portland Cement Company Operating Large, well Balanced Plant. *George Ransom.* No. 2, Oct. 26, 1927 39-48

B

Banks—Borrowing Money from the Bank. *J. J. Berliner.* No. 13, Mar. 28, 1928 52-56

Bass, C. M.—Development of Tennessee's Highway System. No. 9, Feb. 1, 1928 67-68

Bear, F. E.—Evaluating Agricultural Limestone Products. No. 10, Feb. 15, 1928 49-52

Berkshire Hills Lime Company Increases Plant Capacity. No. 5, Dec. 7, 1927 79-80

Berliner, J. J.—Analysis of 1927 Corporate Tax Problems. No. 5, Dec. 7, 1927 43-49
Borrowing Money from the Bank. No. 13, Mar. 28, 1928 52-56
The Financial Budget as an Aid to Better Management No. 13, Mar. 28, 1928 75-78
Principles of Depreciation. No. 1, Oct. 12, 1927....99-102
Purchasing Records and Systems. No. 3, Nov. 9, 1927 86-90
Value of Financial and Operating Ratios in Business Management. No. 10, Feb. 15, 1928....67-72

Bituminous Tops for Old Roads. *A. H. Hinkle.* No. 10, Feb. 15, 1928 56-60

Bituminous Treatment of Gravel Roads. *F. G. Lang.* No. 13, Mar. 28, 1928 69-72

Blake, R. P.—ABC's of Accident Prevention. No. 11, Feb. 29, 1928 77-80

Borrowing Money from the Bank. *J. J. Berliner.* No. 13, Mar. 28, 1928 52-56

Broken Stone Cost Data Suggestions. *George E. Ladd.* No. 9, Feb. 1, 1928 72-74

Brosseau, A. J.—Roads and their Use. No. 9, Feb. 1, 1928 65-66

Brown, J. L.—Producer and Carrier Relationship. No. 7, Jan. 4, 1928 57-58

Brown, R. P.—Modern Dredges Used Exclusively by Columbia Sand and Gravel Company. No. 5, Dec. 7, 1927 55-62

Bruns Hydrated Lime now Established with new Modern Plant. No. 4, Nov. 23, 1927 61-64

Budgets—The Financial Budget as an Aid to Better Management. *J. J. Berliner.* No. 13, Mar. 28, 1928 75-78

Building Construction—Gypsum in Building Construction. *Henry J. Schweim.* No. 9, Feb. 1, 1928....61-64

BUILDING REGULATIONS—Proposed Building Regulations for Reinforced Concrete. No. 12, Mar. 14, 1928..83-84
BUREAU OF ENGINEERING AND SALES. *A. T. Goldbeck.* No. 10, Feb. 15, 1928 66
BUREAU OF PUBLIC ROADS REPORT OF NEW JERSEY COMPARATIVE TESTS ON CRUSHED STONE AND GRAVEL CONCRETE. *Stanton Walker.* No. 13, Mar. 28, 1928...47-51
BUREAU OF STANDARDS INVESTIGATIONS ON LIME DURING 1927. No. 7, Jan. 4, 1928 81-82
BUREAU OF STANDARDS—Cement and Masonry Construction Studies by the Bureau of Standards During 1927. No. 7, Jan. 4, 1928 59-61
Gypsum Investigations During 1927 by the Bureau of Standards. No. 7, Jan. 4, 1928 65-66
BURNING—Gypsum Burning Economies. *B. Saegebarth.* No. 1, Oct. 12, 1927 85-86
BUSINESS—What's Ahead in Business for 1928? No. 7, Jan. 4, 1928 35-36

C

CALIFORNIA PIT AND QUARRY INDUSTRY PICTURED BY UNION ROCK COMPANY. *W. J. Van Valkenburgh.* No. 4, Nov. 23, 1927 79-85
CAREFUL DESIGN RESULTS IN ECONOMIES FOR SAND AND GRAVEL PLANT. *George Ransom.* No. 3, Nov. 9, 1927 71-75
CARRIERS—Producer and Carrier Relationship. *J. L. Brown.* No. 7, Jan. 4, 1928 57-58
CARS—Cleaning and Repairing of Cars Placed for Loading of Sand and Gravel. *J. C. Buckbee.* No. 8, Jan. 18, 1928 89-90
CEMENT, LIME AND GYPSUM DISCUSSED BY A. S. T. M. COMMITTEES. No. 13, Mar. 28, 1928 67-68
CEMENT TECHNOLOGY IN 1927. *C. H. Sonntag.* No. 6, Dec. 21, 1927 94-96
CEMENT AND MASONRY CONSTRUCTION STUDIES BY THE BUREAU OF STANDARDS DURING 1927. No. 7, Jan. 4, 1928 59-61
CEMENT AND QUARRY OPERATORS RECOGNIZE IMPORTANCE OF SAFETY WORK. No. 1, Oct. 12, 1927 51-54
CEMENT—Action of Cement and Gypsum on Light Metals. *Julius Meyer and Kirt Pukall.* No. 10, Feb. 15, 1928 77-79
Analysis of Portland Cement. *Kallauner, Simane and Helan.* No. 12, Mar. 14, 1928.....71-74
Atlas Portland Cement Company Operating Large, well Balanced Plant. *George Ransom.* No. 2, Oct. 26, 1927 39-48
Belgian Cement Importations Drop. No. 2, Oct. 26, 1927 37
Composite of 1927 Cement Plants. No. 6, Dec. 21, 1927 121-136
Contributions of Analytical Chemistry to Production, Research and Use of Portland Cement. *V. Rodt.* Part II. No. 4, Nov. 23, 1927 89-90
Crushers—*see* "Crushers and their Component Parts."
Discussing the Bureau of Public Roads Report of New Jersey Comparative Tests on Crushed Stone and Gravel Concrete. *Stanton Walker.* No. 13, Mar. 28, 1928 47-51
First Cement Plant for New England to be a Model Manufacturing Unit. *F. A. Westbrook.* No. 4, Nov. 23, 1927 39-46
Gravel as an Aggregate for Concrete. *R. W. Crum. and F. H. Jackson.* No. 13, Mar. 28, 1928 61-62
How Lumber and Material Dealers Benefit from the Standardization of Cement. *F. C. Wenthe.* No. 12, Mar. 14, 1928 85-86
Influence of Low Temperature and Frost on the Strength of Super Cements. *A. Gessner.* No. 12, Mar. 14, 1928 77-80
New Dewey Wet Process Cement Plant Complete with Features in Design. No. 2, Oct. 26, 1927 59-67
1927—An Outstanding Safety Year in the Portland Cement Industry. *J. Alton Reitzel.* No. 9, Feb. 1, 1928 75-76
Proposed Building Regulations for Reinforced Concrete. No. 12, Mar. 14, 1928 83-84
Quick Hardening Concrete. *F. V. Regal.* No. 12, Mar. 14, 1928 63-66
Raw Cement Mixtures Calculations. *F. Gille.* No. 4, Nov. 23, 1927 65-69
Recent Developments in the Manufacture and Use of Concrete Masonry. *W. D. Allan.* No. 8, Jan. 18, 1928 85-88
Recent Researches in Portland Cement. *Roy M. Green.* No. 7, Jan. 4, 1928 37-44
Researches on Concrete Material. No. 13, Mar. 28, 1928 73-74

Separate Sizes of Coarse Aggregate for Concrete. *R. T. Giles.* No. 9, Feb. 1, 1928 79-80
Setting and Hardening of Cements. *R. Nacken.* No. 2, Oct. 26, 1927 74
Setting and Hardening Processes in Cement. *R. Nacken.* No. 13, Mar. 28, 1928 79-83
Some Methods of Measuring the Workability of Concrete. *George A. Smith and George Conahey.* No. 12, Mar. 14, 1928 81-82
Stability of Cements in Corrosive Waters. *Dr. Haegermann.* No. 11, Feb. 29, 1928 67-69
Two new Cement Applications. *Uthai Vincent Wilcox.* No. 5, Dec. 7, 1927 51-54
Wisconsin's Concrete Highway Program. *H. J. Kuelling.* No. 7, Jan. 4, 1928 52-54
CHADWICK, J. W.—Oil Engine Power Units. No. 7, Jan. 4, 1928 55-56
CHAPMAN SLATE CO.—The Wire Saw in Slate Quarrying. *J. R. Thoenen.* No. 10, Feb. 15, 1928 73-76
CHEMICAL LIME CO.—Reflecting 1927 in the Lime Industry. No. 6, Dec. 21, 1927 91-93
CHICAGO-BLOOMINGTON STONE CO.—Stripping Problems Vary in same District in Southern Indiana. No. 9, Feb. 1, 1928 54-56
CHILDS, LESLIE—What Damage Rights has a Company when a Telegraph Company Fails to Deliver? No. 2, Oct. 26, 1927 58
CITY COSTS NOT FOUND EXORBITANT. *E. E. Duffy.* No. 5, Dec. 7, 1927 32
CLEANING AND REPAIRING OF CARS PLACED FOR LOADING SAND AND GRAVEL. *J. C. Buckbee.* No. 8, Jan. 18, 1928 89-90
COAL MINES—Rock-Dusting of Coal Mines Progresses but is far from General Practice. No. 12, Mar. 14, 1928 75-76
COLD WEATHER LUBRICATION. No. 2. Oct. 26, 1927.....83-84
COLONIAL SLATE CO.—The Wire Saw in Slate Quarrying. *J. R. Thoenen.* No. 10, Feb. 15, 1928.....73-76
COLUMBIA SAND AND GRAVEL CO.—Modern Bucket Dredges Used Exclusively by Columbia Sand and Gravel Company. *R. P. Brown.* No. 5, Dec. 7, 1927....55-62
COMMONWEALTH SAND AND GRAVEL CO.—Speed in Handling Product from Plant Important to Commonwealth Company. No. 7, Jan. 4, 1928.....45-48
COMPENSATION INSURANCE FOR MARINE SAND AND GRAVEL PRODUCERS. *J. L. Richmond.* No. 8, Jan. 18, 1928 81-84
COMPLETELY MODERN GRANITE OPERATION FOUND OFF THE COAST OF MAINE. *F. A. Westbrook.* No. 3, Nov. 9, 1927 79-85
COMPOSITE OF 1927 CEMENT PLANTS. No. 6, Dec. 21, 1927 121-136
CONAHEY, GEORGE, AND GEORGE A. SMITH—Some Methods of Measuring the Workability of Concrete. No. 12, Mar. 14, 1928 81-82
CONCRETE—*see* "Cement."
CONNECTICUT QUARRIES CO.—A Distinguished Trap Rock operation. *F. A. Westbrook.* No. 1, Oct. 12, 1927 76-80
CONNECTICUT RIVER SAND COMPANY COMPLETES FIFTH YEAR WITH SAME PLANT. *H. F. Rende.* No. 13, Mar. 18, 1928 91
CONNER, C. N.—Improved Service on County Roads by Low Cost Methods. No. 12, Mar. 14, 1928 70
Survey of the Surface Treatment Field. No. 7, Jan. 4, 1928 83-86
CONSOLIDATION. *A. S. Deringer.* No. 12, Mar. 14, 1928.. 97
CONSTRUCTION INDUSTRY—1927 was the Second Highest Year in the Construction Industry. No. 8, Jan. 18, 1928 79-80
CONSTRUCTION MATERIALS CO.—Effective Sand Handling Methods Used by Construction Materials Company. No. 4, Nov. 23, 1927 73-78
CONSTRUCTION OUTLOOK FOR 1928. *Thomas S. Holden.* No. 8, Jan. 18, 1928 67-71
CONTESTS—Our National Safety Contests. *W. W. Adams.* No. 11, Feb. 29, 1928 70-72
CONTRIBUTIONS OF ANALYTICAL CHEMISTRY TO PRODUCTION, RESEARCH AND USE OF PORTLAND CEMENT. *V. Rodt.* Part II. No. 4, Nov. 23, 1927 89-90
CONVENTIONS—Cement, Lime and Gypsum Discussed by A. S. T. M. Committees. No. 13, Mar. 28, 1928...67-68
Sand and Gravel Producers get together and Discuss Important Issues. No. 8, Jan. 18, 1928 43-59
Significant Crushed Stone Convention. No. 9, Feb. 1, 1928 41-53
COOLIDGE, R. N.—Design and Construction of Marine Sand and Gravel Units. No. 8, Jan. 18, 1928 73-79

North Western Bindery 622.05 v.15 1927-28
1.35 6-12-29 P68

COST ACCOUNTING AND ITS APPLICATION TO THE MINERAL AGGREGATE INDUSTRY. *Carl Penner.* No. 7, Jan. 4, 1928 49-51
COSTS—Broken Stone Cost Data Suggestions. *George E. Ladd.* No. 9, Feb. 1, 1928 72-74
CREDIT—False Credit in the Highway Industry. *Alan Jay Parish.* No. 11, Feb. 29, 1928 63
CREIGHTON, J. A., AND CO.—The Home of Wood Burned Lime. *F. A. Westbrook.* No. 1, Oct. 12, 1927....59-62
CROWN POINT SPAR CO.—Shores of Lake Champlain Mean Business to Crown Point Spar Company. *F. A. Westbrook.* No. 12, March 14, 1928....67-70
CRUM, R. W., AND F. H. JACKSON—Gravel as an Aggregate for Concrete. No. 13, Mar. 28, 1928 61-62
CRUSHED STONE INDUSTRY, ITS VALUE TO TRANSPORTATION. *H. O. Hartzell.* No. 9, Feb. 1, 1928....77-78
CRUSHED STONE—Broken Stone Cost Data Suggestions. *George E. Ladd.* No. 9, Feb. 1, 1928 72-74
California Pit and Quarry Industry Pictured by Union Rock Company. *W. J. Van Valkenburgh.* No. 4, Nov. 23, 1927 79-85
Cement and Quarry Operators Recognize Importance of Safety Work. No. 1, Oct. 12, 1927 51-54
Crushers—*see* "Crushers and their Component Parts."
Discussing the Bureau of Public Roads Report of New Jersey Comparative Tests on Crushed Stone and Gravel Concrete. *Stanton Walker.* No. 13, Mar. 28, 1928 47-51
Distinguished Trap Rock Operation. *F. A. Westbrook.* No. 1, Oct. 12, 1927 76-80
Dolomite, Inc., Uses Advanced Methods in new Crushed Stone Plant. *H. W. Munday.* No. 4, Nov. 23, 1927 47-54
Dubuque Stone Products Operates Quarry with 200 Foot Face within City Limits. No. 3, Nov. 9, 1927 63-69
Gravel and Stone Bases for Asphalt Wearing Courses. *E. N. Seymour.* No. 5, Dec. 7, 1927 81-82
How a Laboratory will Benefit the Crushed Stone Industry. *A. T. Goldbeck.* No. 10, Feb. 15, 1928....53-55
No Place for Crushed Stone Salesmen in this Enterprising Company. *George Ransom.* No. 5, Dec. 7, 1927 33-37
Reduction of Waste Increases Profits. No. 5, Dec. 7, 1927 67-70
Rock-Dusting of Coal Mines Progresses but is far from General Practice. No. 12, Mar. 14, 1928....75-76
Safety in the Quarry Industry. *W. W. Adams.* No. 1, Oct. 12, 1927 81-84
Significant Crushed Stone Convention. No. 9, Feb. 1, 1928 41-53
Status of Rock-Dusting in the United States. *D. Harrington, J. J. Forbes and F. Feehan. No. 13, Mar.* 28, 1928 57-60
Stripping Problems Vary in same District in Southern Indiana. No. 9, Feb. 1, 1928 54-56
Transportation in Open Quarries. No. 5, Dec. 7, 1927 38
Truck Operations in Quarries. *F. S. Jones.* No. 11, Feb. 29, 1928 61-63
Typifying 1927 in Crushed Stone Plants. *H. W. Munday.* No. 6, Dec. 21, 1927 97-101
CRUSHERS AND THEIR COMPONENT PARTS. *W. T. W. Miller*
Part VIII. No. 1, Oct. 12, 1927....92-98
Part IX. No. 2, Oct. 26, 1927 93-95
Part X. No. 3, Nov. 9, 1927 99-104
Part XI. No. 4, Nov. 23, 1927 86-88
Part XII. (Conclusion) No. 5, Dec. 7, 1927....97-99
